

# CONVERSATION CLUB

Since many institutes nowadays try to create groups in which the students have the same level (or close to the same level)...this class is **the exception**. This class joins students of all levels (in which the student can fluently communicate – no matter if the student is mistake prone – the student will be allowed to join if he or she can be understood and if he or she can understand.)

It's a class in which different levels of English can come together; learn from each other, share opinions and ideas, and last but certainly not least: **IMPROVE YOUR ENGLISH!**

Each student will be allowed to bring one topic to class. The institute will also have its topics to discuss. The idea is for everyone to get involved in each and every topic with his or her respectful opinions and ideas to share and debate.

The catch is that the class will be held with a variety of snacks (picada) and wine included (the school pays for the food and drinks – if you do not drink alcohol, we will also have beverages). It's like a discussion that gets generated informally at someone's house during a party (or get together) but in a controlled environment in which the debaters have an opportunity to work on and strengthen their language skills.

The class will be held Friday evening's from 9:00-10:30 pm. \*\*\*All the corrections are made on the spot by the instructor.

Students may correct other students but **ONLY AFTER** the student has finished speaking. (I suggest you bring a notepad to write down the errors that you hear).
